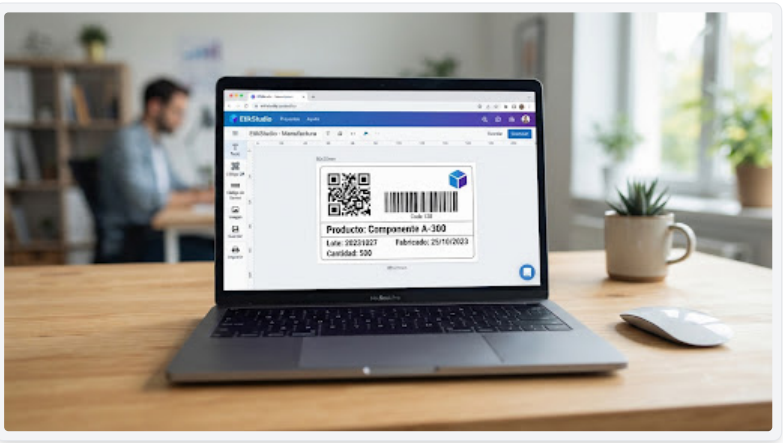
A complete platform for all your labels

Web Editor • Windows • macOS • Linux • iOS • Android

EtikStudio is professional, multiplatform labeling software that lets you design, manage and print variable-data labels from any device. Its modern, centralized architecture guarantees consistency, traceability and maximum productivity in any operation.

Design in the powerful web editor, connect your data, define business rules and print on any printer from Windows, macOS, Linux, iOS, Android or directly from your browser.



Target markets

- Manufacturing
- Automotive
- Logistics & Warehousing
- Retail & Distribution
- Food & Beverage
- Pharmaceutical & Medical Devices
- Electronics
- Multi-site Operations

Value proposition

Design once
Create your labels in the web editor and use them on any device.

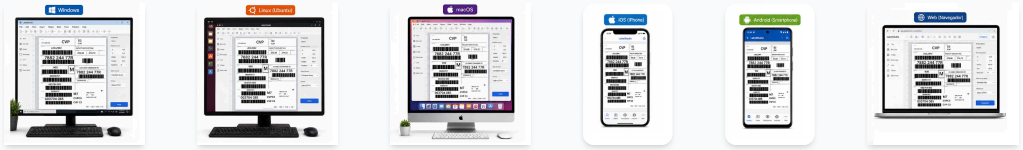
Connect your data
Connect to databases, files, APIs and business systems.

Print anywhere
Print from Windows, macOS, Linux, iOS, Android or from your browser.

Multi-language support
Import native code (ZPL, EPL, DPL, SBPL, TSPL, TPCL, IPL, Fingerprint) and get an instant visual representation. Design, modify and export to any of the supported languages with total flexibility.

ONE DESIGN. EVERYWHERE.

Create your label in the Web Editor and run it on any platform.



Windows · Linux · macOS · iOS · Android · Web (Browser)

Functional specifications

- **Professional web editor** WYSIWYG design, layers, alignment, grids, advanced objects, true preview and print simulation.
- **Variable data** Variables, counters, dates/time, serialization, conditions, calculations and expressions.
- **Barcodes** Broad support for 1D and 2D symbologies for industrial and commercial use.
- **Data connectivity** SQL databases, CSV/Excel files, queries, REST APIs, Webhooks and more.
- **Advanced printing** Batch printing, printer selection, copies, ranges, reprinting, history and auditing.
- **Management & security** Users, roles, per-resource permissions, action auditing and logs.
- **Templates** Import/export, versioning and reuse across organizations.

Integration & connectivity

Databases
SQL Server, PostgreSQL, MySQL/MariaDB, Oracle, SQLite and more.

Files
CSV, Excel (XLSX), TXT, JSON, XML.

APIs & services
REST API, Webhooks, token authentication.

Business systems
ERP, WMS, MES, SCM and custom systems.

Automation
File Drop (folders), task scheduling, events and integrations.

Printing specifications

Compatibility
More than 10,000 direct thermal, thermal transfer, laser and inkjet printers.

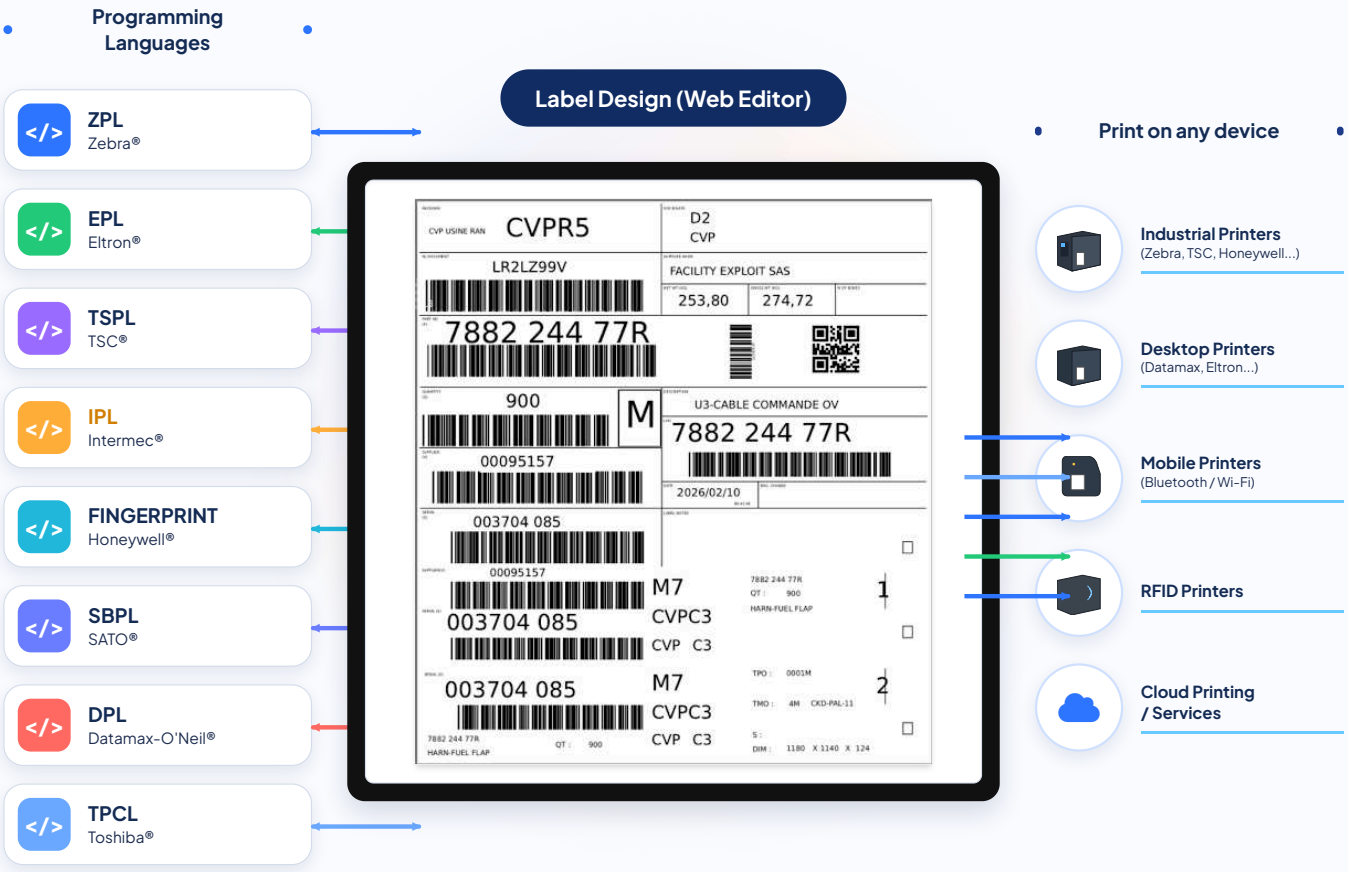
Output formats
ZPL, EPL, DPL, PDF, PNG, TIFF.

Print management
Local, network or cloud printing.

Sizes & orientations
Supports all sizes and customized orientations.

One design. Multiple languages. Any printer.

Design, translate and send labels to any device with full compatibility.



Automatic translation

Pre-print validation

Print optimization

Template version control

Compatibility Universal

Supported symbologies

1D (Barcodes)

- Code 128 (A, B, C)
- Code 39
- Code 93
- EAN-8 / EAN-13
- UPC-A / UPC-E
- ITF-14
- Interleaved 2 of 5
- GS1-128 (UCC/EAN-128)
- Codabar (NW-7)
- MSI
- Pharmacode
- Plessey
- Telepen
- Australian Post
- Royal Mail 4-State

2D (Two-dimensional codes)

- QR Code
- Data Matrix (ECC 200)
- GS1 DataMatrix
- PDF417
- Micro PDF417
- Aztec Code
- MaxiCode
- Micro QR

Feature matrix by platform
